RTR .18 Rules

Changes you can make include:

- Any paint scheme
- Any Radio System
- The Exhaust may be changed to any legal exhaust per noise rules.
- The engine may be changed as long as it is from the same manufacturer as the boat hull and doesn't exceed the .18 cc max. (ie. you may switch the engine in a ProBoat as long as you use a ProBoat manufactured engine. This boat comes with a ProBoat .15 and may be changed to a ProBoat .18)
- In the interest of time during all RTR races the Half Mill course will be in effect. Half Mill Means you throw your boat in the water, complete one lap, then you may cut the course between the number 6 buoy and the start clock. Boats coming down the back straight have right-of-way, you may move into any lane not taken by another boat as long as you have 3 boat lengths. This will tighten up the start and give us some GREAT RACING.

Mail a check payable to Mike Schindler and mail the **RTR .18** registration form to:
